

**DELLE VENEZIE DOC PINOT GRIGIO**  
*Denominazione di Origine Controllata*  
**OPERATING INSTRUCTOR FOR BOTTLING OUTSIDE ITALY**

Dear Sirs,

From August 1, 2017, "Pinot Grigio delle Venezie" wine becomes a name of controlled origin and will therefore be subject to more stringent control procedures than it had been in the past.

Triveneta Certificazioni Srl (hereinafter referred to as "Triveneta"), at the request of the "Delle Venezie" Consortium of protection ([www.dellevenezie.it](http://www.dellevenezie.it)), is the certification body authorized by the Italian Ministry of Agriculture to carry out the traceability checks of this wine, and distribute government seals to bottlers. The controls cover all phases of the production chain, in particular the vineyards and the cellars where the wine is produced and bottled. For bottlers located outside Italy, only the controls for the bottling phase are applicable.

From August 1, 2017, the "Pinot Grigio delle Venezie" wine will may continue to be bottled outside Italy only on condition that the winery agrees to be controlled by Triveneta, and pay the related charges.

Below you find a brief guide to correctly complete all the requirements imposed by Italian law.

**CERTIFICATION FEES**

Anyone bottling the "Pinot Grigio Delle Venezie DOC" wine is subject to the following fees:

- € 0,31 (excluding VAT) for 100 liters of bottled wine. This fee covers the costs of certification and checks carried out on the denomination of origin "Delle Venezie";

- € 0,015 (excluding VAT) for each government seal ("banderole") purchased. Please note that the application of banderole is compulsory on each package of wine, as it is a true guarantee of the Italian State on the authenticity of the product.

Depending on the orders of banderole and bottlings made during each month, Triveneta will issue a postponed invoice at the end of the month. Payment must be made within 30 days of the invoice date.
